COSHH Awareness

This half day course aims to introduce delegates to the hazards associated with substances hazardous to health, the risks and controls available. It also covers what to expect from a COSHH assessment. Successful completion will prepare delegates to look carefully at their own work activities and contribute to the safer use of hazardous substances in co-operation with their managers and supervisors.

Who should attend?

Anyone for whom an introduction and basic knowledge of COSHH is required and/or recommended.

Course Location: On-Site at your premises

Course Duration: 1 Half Day, 3Hrs

No. of Delegates: 12 delegates max

By attending this course delegates should be able to:

- ✓ Explain what is meant by the term "substance hazardous to health: and give examples
- ✓ Explain how hazardous substances can cause ill health and injury and give examples
- ✓ State the different ways in which hazardous substances may be identified
- ✓ State the principles for controlling substances hazardous to health and apply these in a practical context
- ✓ Demonstrate a general understanding of the value and purpose of conducting a COSHH assessment and what employees can expect of such assessments.
- ✓ Demonstrate an understanding of the main provisions of the COSHH Regulations 2002.

Course syllabus covers:

- Definition and types of substances hazardous to health in the workplace
- Health effects of hazardous substances and their causes
- COSHH assessments and control options
- Responsibilities imposed by the COSHH Regulations 1999

Delegates Receive:

COSHH Awareness Certificate of Training
