Fire Risk Assessment

Due to the introduction of the Fire Precautions (Workplace) Regulations 1997 (Amended 1999) and the Fire Safety Order 2005 **all employers are now required to undertake a fire risk assessment of their workplace.** Insurers are now increasingly requiring their customers to demonstrate that they are taking a responsible approach to fire safety, particularly the safety of staff, customers, visitors and property.

Our one-day Risk Assessment course covers the most effective method of carrying out your own comprehensive assessment, based on our professional experience.

Our fire safety trainer is a professionally qualified Fire Officer with a wealth of fire fighting and fire safety experience. This is invaluable when advising organisations on compliance issues, preparing staff for discussions with the local fire brigade and to add realism to all our fire safety courses.

Course Location: On-Site at your premises

Course Duration: One Full Day, 9.30am - 4.30pm (date to suit you)

No. of Delegates: 12 delegates max

Suitable for: All fire safety/risk assessment nominated employees in commercial, industrial or educational organisations.
