Basic Spill Responder Training

This Basic Spill Responder is a lively and interesting course which is designed to fill both the needs of ISO 14001 accreditation and legislation compliance. The main objective is to ensure that named members of the companies Spill Team know their role and what to do when handling a spill.

Delegates will be encouraged to ask questions, give their opinions and talk about potential problems as they see them on their site. Delegates will cover the basics of using your spill response inventory and PPE (Personal Protective Equipment).

Course Location: On-Site at your premises

Course Duration: 1 Half Day (3-3.5Hrs)

No. of Delegates: 12 delegates max

Course Content:

- Your role within the company Spill Plan
- Raising the Alarm: Triggers, Escalation Procedures
- Review and use of your Spill Response Inventory
- Analysis of the Sensitive Areas of your Site
- Planning your response
- Handling Hazardous Spills - Do's, Don'ts and PPE
- Handling an Oil Spill
- Handling a Chemical Spill
- Identification of Hazards
- CoSHH data Sheet interpretation

Delegates Receive:

Course Notes, Certificate of Basic Spill Responder Training and course materials.
