Better People, Better Business®

Effective Waste Management

Course Objectives

This course is designed to introduce waste minimisation to delegates and provide an overview of how to implement a waste minimisation program. Waste in business is increasing as a priority as legislation becomes stricter and companies begin to understand the environmental and financial loss when waste is not reduced. Waste minimisation provides many benefits to organisations including aiding in compliance, locating and saving hidden costs and running your organisation more efficiently.

Course Duration: One Full Day, 9.30am - 4.30pm

Cost Includes: Comprehensive Course Notes, Training Certification, Course Materials, lunch & refreshments

Course Venue: In-House at your site premises

Contact for a competitive Quotation to match your training requirements

At the end of this course, delegates will be able to:

- * Have an understanding of what is waste, and the types of waste
- * Be able to identify the principal pieces of waste legislation and their requirements
- * Understand and be able to describe the hierarchy of waste
- * Understand the concepts behind waste mapping and be able to plan and conduct a waste audit
- * Be equipped to be able to implement and manage a waste minimisation system
- * Understand how waste minimisation fits in with your companies ISO 14001 management system

The course includes the following:

- An introduction to waste "What is waste?"
- An overview of relevant waste legislation
- An introduction to waste minimisation - fundamental concepts including the approached necessary for continual improvement
- Techniques used to identify waste streams including waste audits and waste assessments
- An overview of planning, implementing and maintaining a working waste minimisation system

Delegates Receive:

Effective Waste Minimisation & Awareness Training Certificate and course notes.
