

Evacuation Chair Training

As an organisation you are responsible for evacuating people from your building, therefore staff members need to be trained to use evacuation chairs correctly, and to be completely confident they can assist a vulnerable individual in the event of an emergency evacuation.

A practical approach is taken to this one hour course held at your site premises to ensure that plenty of hands-on practice – all under expert supervision will enable your staff to use evacuation chairs in your building correctly and with confidence in the event of an emergency.

Course Duration: One hour

Venue: held in-house at your company premises

Delegate Numbers: Max 6 Delegates (extra courses can on run same day)

Training Benefits:

- Will equip your staff with the competency to safely use evacuation chairs
- Practical and interactive to maximise the effectiveness of the training session
- Delivered by a highly experienced Fire Safety instructor

Who should attend ?

The course is aimed at any staff who may need to use evacuation chairs

Delegates will gain the following competencies:

- Ability to understand how to safely use evacuation chairs
- Be able to demonstrate the practical skills required for safe evacuation chair usage

All Delegates receive course Course Notes and Certificate of Training valid for 3 Years
