

Safe Use of

Gantry Crane & Hoist

This one day course provides a working knowledge of gantry crane operations including instruction on safe methods of crane and hoist. This course meets the statutory requirements of the H.S.E. and will provide practical experience for personnel involved with the movement of heavy goods.

Course Benefits

- Recognition of hazards and understanding of precautions to reduce accidents
- Legislative compliance
- Reduced risks of incidents and accidents

All training is carried out in-house at your UK site premises by one of our Accredited fully qualified, experienced crane instructors tailored to suit your specific requirements and held on date(s) to suit you with training start times from 7.30am to fit in with delegates working hours.

Course Venue:	Held in-house at your site (on a day to suit you)
