Legionella Awareness

This half day awareness course has been developed as an introduction to the issues that surround Legionelle and Legionnaires' disease, the history of the organism, current UK legislation and good practice procedures.

- Course Location:** On-Site at your premises
Course Duration: 1 Half Day 3Hrs, (date to suit you)
No. of Delegates: 10 delegates max

Who should attend?

This course will be of most benefit to technical and maintenance staff, building and facilities managers and those with responsibility for health and safety who require a good overview of the issues surrounding Legionella control, current legislation and good practice procedures.

Course Content:

- Water and its use in hot and cold water systems and cooling towers and cooling systems
- History of Legionella and Legionnaires' disease
- Legionella risks in cooling towers and cooling systems
- Legionella risks in hot and cold water systems
- Introduction to Approved Code of Practice and Guidance (ACoP) L8 "Legionnaires' Disease: Control of Legionella Bacteria in Water Systems". This guide has special legal status and gives practical advice on the requirements of the Health & safety at Work Act 1974, The Control of Substances Hazardous to Health Regulations 1999 (COSHH) and the relevant parts of the Management of Health and Safety at Work Regulations 1999 (MHSWR).
