MINITAB BASICS

2019 Birmingham Dates: 26 March • 25 June • 26 November

Course Description

This 1-day course explains how the analysis of process and product data can be readily accomplished using Minitab software. The course supports Advanced Product Quality Planning (APQP), Production Part Approval (PPAP), problem-solving and continual improvement activities.

Who should attend?

Project and engineering managers, design and development engineers, project and process engineers, laboratory technicians, quality engineers, sales engineers, quality auditors, and other personnel who are involved with the introduction of new products and contribute to APQP / PPAP activities. Note. Delegates will need to bring to the training session a laptop with Minitab v18.1 installed. A free 30-day trial version can be downloaded from the Minitab website

In-House Course or at our Birmingham Venue

Course Duration: One Full Day
