Portable Appliance Testing Course

This one day course covers both the theory and practical aspects of PAT Testing in line with The Code of Practice for In-Service Inspection and Testing of electrical equipment.

The course is carried out by a qualified instructor with a number of years experience using a portable appliance tester (we supply this), and there is a short multiple choice test at the end of the course to help assess the delegates competency.

Course Location: On-Site at your premises

Course Duration: 1 Full Day (date & time to suit you)

No. of Delegates: 10 delegates max

Topics covered:

- Legal requirements
- Types of Equipment to be inspected and tested
- Frequency of Testing
- Testing procedure for Class 1, II & III items
- Visual inspection
- Hazards of incorrect testing
- Combines Testing and Inspection
- Recording Results
- Labelling of equipment
- Practical Testing and Exercises
- Multiple Choice Test

Delegates Receive:

Certificate of Competence Training, course handout summarising the topic areas covered, and pen.
